

Induction cooktop vents installation and warranty requirements.

Miele

Read the operating and installation instructions carefully before using the cooktop. They contain important information on safety, installation, use and maintenance of the appliance. This prevents both personal injury and damage to the cooktop.

In accordance with standard IEC 60335-1, Miele expressly and strongly advises that you read and follow the instructions in “Installation”, as well as in the “Warning and Safety instructions”. Miele cannot be held liable for injury or damage caused by non-compliance with these instructions.

Warning and Safety instructions

▶ If the cooktop is installed behind a furniture door, do not close the door while the cooktop is in operation. Heat and moisture can build up behind the closed door. This can result in damage to the cooktop, the housing unit and the floor. Do not close the door until the appliance has cooled down and the residual heat indicators have gone out.

▶ In areas which may be subject to infestation by cockroaches or other vermin, pay particular attention to keeping the appliance and its surroundings clean at all times. Any damage caused by cockroaches or other vermin will not be covered by the warranty.

▶ Spray canisters, aerosols and other inflammable substances can ignite when heated. Therefore do not store such items or substances in a drawer under the cooktop. Cutlery inserts must be heat-resistant.

▶ Metal utensils stored in a drawer under the cooktop can become hot if the appliance is used intensively for a long time. Do not store

▶ The cooktop is fitted with a cooling fan. If a drawer is fitted directly underneath the cooktop, ensure that there is sufficient space between the drawer and its contents and the underside of the cooktop in order to ensure sufficient ventilation of the cooktop. Do not store pointed or small items or paper in the drawer. They could get in through the ventilation slots or be sucked into the casing by the fan and damage the fan or impair cooling.

NEFF

⚠ Safe installation

Follow these safety instructions when installing the appliance.

The appliance can only be used safely if it is correctly installed in accordance with the installation instructions. The installer is responsible for ensuring that the appliance works perfectly at its installation location.

- Improper installation, opening of the appliance, connection or assembly may lead to a loss of validity of the product warranty.

Ventilation

To guarantee that the appliance works correctly, the hob must be sufficiently ventilated. The ventilation in the lower section of the appliance requires a sufficient supply of fresh air. Therefore, if required, adjust the units for this purpose.

This warranty will not apply in the following cases:

4. The appliance is damaged as a direct result of incorrect installation or being used for a purpose for which it not designed, sold or otherwise not in accordance with any instructions for installation and use.
